15th April 1922.

My dear Raja Sahib,

I am much obliged for your letter of the 10th Instant. Kashmir has not ceased to trouble you yet. I do hope, however, your son will be able to make the place habitable. Your letter, especially the reference to Kashmireamused my very much.

As at present arranged, His Highness arrives at Kalka at 7 A.M. on the 29th and will leave Kalka four hours later i.e., 11 A.M.

You will probably meet our mutual friends, Mr. and Mrs. St Nihal Singh at Simla. I believe they are going there very soon.

Looking forward ~~to~~ with the intense pleasure ~~of~~ to our meeting, and with warmest regards,

believe me,

Ever yours,

I returned to Mysore on the 28th, after a long and trying journey. Hardwar was pretty warm, but Northern India was much worse, and the dust was simply awful. I had my second experience of dust-storm there, which lasted for more than half-an-hour. It was such a relief - after the long and dusty journey - to return to Mysore and find it looking so fresh and green and delightfully cool.

Now, allow me to send you my warmest thanks for all the trouble you so willingly took in connection with my visit to Simla. If I derived any pleasure from my visit to that place, it was entirely due to you. But for you I should have had a very dull and uninteresting time there.

I hope you are all well. Looking forward to the pleasure of seeing you again soon.

Raja
